NORTHWIND LABS CODE OF CONDUCT

1. Purpose

This Code of Conduct sets out the standards of behaviour expected of everyone who works at Northwind Labs, including employees, contractors, agents and interns. It applies in the office, when working remotely, at company events and when representing Northwind externally.

2. Respect and Anti-Harassment

We treat everyone with respect. Harassment, bullying, discrimination and intimidation of any kind are not tolerated, whether in person, in writing or online.

3. Conflicts of Interest

A conflict of interest is any situation where your personal interests could influence, or appear to influence, decisions you make for Northwind. Examples include handling a claim for a friend or relative, holding shares in a supplier or competitor, outside employment with another insurer, and close personal relationships with people you manage. You must disclose any conflict to your line manager and People & Culture in writing, and step back from the related decision.

4. Gifts and Hospitality

You may accept gifts or hospitality from customers, brokers or suppliers worth up to 50,000 naira. Anything above that value must be declared to your manager within five working days and may need to be returned. Cash, airtime or gift cards must never be accepted.

5. Confidentiality and Customer Data

Policyholder data, claims records, pricing models and employee records are confidential. Handle personal data in line with the Nigeria Data Protection Act. Share it only with people who need it to do their job. Confidentiality obligations continue after you leave Northwind.

6. Reporting Concerns

If you see something that breaks this Code, speak to your manager or People & Culture, or report it confidentially to ethics@northwindlabs.example. Reports can be made anonymously. Northwind does not tolerate retaliation against anyone who raises a concern in good faith.

7. Consequences

Breaches of this Code may lead to disciplinary action, up to and including dismissal. Fraud, including claims fraud, will be reported to the relevant authorities.
